SUMMARY

I am going a Versatile Fullstack & Game Developer skilled in modern web stacks (React, Next.js, TypeScript, Node.js) and cross-platform game engines (Unity, Godot). Experienced in building scalable apps like a student health system, job board SaaS, and engaging mobile games with a focus on clean architecture, UI/UX,, passion for learning and performance.

PROFESSIONAL EXPERIENCE

Cradaptive Studios - Game Developer Dec 2024 - Present

- Built mini-games and reusable game mechanics using Unity and C#.
- Contributed to UI/UX polish, game flow logic, and animation timing.
- Designed and implemented level systems and basic state management.
- Participated in sprint cycles and collaborated with designers in cross-functional teams.

PurpleRain TechSafe - Frontend Developer Intern Jun 2025 - Aug 2025

- Developed responsive UI components using React.js, TypeScript, and TailwindCSS.
- Integrated dynamic forms and dashboards for HR CRM platform.
- Collaborated with backend team to connect APIs and ensure seamless data flow.
- Improved UI accessibility and responsiveness across devices.

PROJECTS

Multi-Tenant Job Board Platform - Fullstack Developer August 2025

Tech Stack: Next.js, TypeScript, Supabase, TailwindCSS, n8n

- Built a dynamic job board platform for HR recruiters to post and manage job listings.
- Implemented secure user authentication and admin dashboard for job CRUD operations
- Integrated n8n automation to sync job postings from external sources like Google Sheets.
- Designed responsive UI components optimized for desktop and mobile views.

Student Health Center Website - Fullstack Developer June 2025

Tech Stack: HTML, Bootstrap, JavaScript

- Developed an accessible and informative health portal for students to find doctor availability, emergency tips, and department services.
- Integrated a keyword-based chatbot to assist users with basic health inquiries.
- Designed a clean, responsive layout that improved access to critical information.
